ALEX CLEMENTS

alex.clements.cci@gmail.com | 613-290-3888 | Ottawa | GitHub | Website | Udemy Courses

HIGHLIGHTS OF QUALIFICATIONS

- Software developer with experience building desktop, web, database and Unity applications using Python, Java, C++, JavaScript/TypeScript, React, PostgreSQL, and C#.
- Experience developing full-stack applications with the PERN stack, REST APIs, Git, SQL databases and cloud technologies including AWS and Microsoft Azure.
- Strong knowledge of object-oriented programming, data structures, algorithms, software testing, and version control.
- Created technical training material and independently developed complete courses on SQL and Python for databases.

WORK EXPERIENCE

Software Developer & Technical Curriculum Developer / Claremont Communications

2023, June 2025 - Present

- Developed technical curriculum, labs, and programming exercises covering AWS, Databricks, JVM technologies, databases, and cloud computing.
- Refactored a legacy application into a production-ready PERN (PostgreSQL, Express.js, React, Node.js) web application, improving maintainability and modernizing the software architecture.
- Independently designed and developed two complete technical training courses covering Python database programming and SQL fundamentals, including lectures, coding demos and labs.
- Consulted with clients to identify software requirements and recommend improvements to application architecture and development workflows.
- Tested software labs and training environments, identifying issues and improving course quality before release.

Deputy Information Management Officer / Department of National Defence (Canada)

May 2024 - April 2025

- Designed and developed an internal Office Map application integrated with Microsoft Power BI and Power Apps to improve workplace information accessibility.
- Automated business processes using Microsoft 365 technologies, Power Automate, Power Apps and SharePoint solutions.
- Collaborated with cross-functional teams to improve software development workflows and promote agile practices.

Junior Programmer / Claremont Communications

July - August 2020, 2021 & 2022

- Developed Python scripts demonstrating Azure Blob Storage operations and produced accompanying technical documentation
- Created a Java desktop application for Windows that indexed and searched files efficiently using JavaFX for the graphical user interface
- Developed a web-based accounting ledger application using Python, Flask, HTML, and Pandas.

TECHNICAL SKILLS

Languages: Python, Java, C#, C++, C, JavaScript, TypeScript, SQL, HTML, CSS, Go
Frameworks: React, Node.js, Express, Flask, Unity, JavaFX
Databases: PostgreSQL, MySQL, DB2, Oracle, SQL Server
Cloud: AWS, Azure, Databricks
Tools: Git, Docker, Linux, Mac, Visual Studio, Power BI, Power Apps, Jira

EDUCATION

BSc in Computer Science

University of Ottawa | 2026

- Graduated Magna Cum Laude
- Dean’s Honour List
